HECTOGRAPH CLASSIFICATION STICKERS FOR TOP SECRET DOCUMENTS

Regulations require that Top Secret documents reproduced by the hectograph (Ditto) process bear the Top Secret classification in red ink. This requirement is generally met either by stamping every page of the document by hand or by reproducing the document on paper which has "TOP SECRET" printed on it in red ink. Both methods are time-consuming and uneconomical.

Your Building Supply Room now has the solution to this problem--HECTOGRAPH TOP SECRET CLASSIFICATION STICKERS. These stickers with the words "TOP SECRET" imprinted with red hectograph dye are easily affixed to any hectograph master and will reproduce the classification in red simultaneously with the reproduction of the text.

If you originate or reproduce Top Secret documents by the hectograph process, ASK FOR HECTOGRAPH TOP SECRET CLASSIFICATION STICKERS when you ask for hectograph masters.

THIS IDEA BROUGHT AN AWARD OF \$35 TO ITS SUGGESTER!
